

COMPANY POLICY

BRAVI PLATFORMS Srl aims to fully achieve customer and other interested parties' satisfaction (employees, suppliers, ownership, stakeholders, external environment) by manufacturing and selling Mobile Elevated Work Platforms (MEWP) and Industrial Stock-Pickers.

The management undertakes to make the appropriate resources available to comply with country-specific laws and regulations and international Standards with regard to:

- ☞ **Quality;**
- ☞ **Environment;**
- ☞ **Occupational Health and Safety;**
- ☞ **Ethics;**

BRAVI PLATFORMS Srl Quality Management System is certified ISO 9001:2015 Standard and it initiated its integration process with the Environmental Management System- ISO 14001 Standard.

Considering the specific business context and in compliance with the existing regulations, BRAVI PLATFORMS srl undertakes to pursue continuous improvement, aiming to:

- Provide products and services that always meet customer expectations;
- Bring about the efficiency of internal processes while improving resources and means and reducing management costs;
- Minimize negative impacts on the environment, by reducing resource consumption, limiting waste, providing increasingly advanced and high-performance equipment and constantly monitoring the good status and the efficiency of the equipment used;
- Ensure maximum security for all the operators and adopt every possible strategy to reach the goal of zero injuries;
- Promote the awareness of all operators about the impacts of their activity on environment and safety;
- Involve all staff to ensure the achievement of annual objectives, in compliance with the existing business plans and the related timetable;
- Promote inclusion and provide a working environment respectful of human and labour rights, including the rights of other interested and external parties', with no discrimination towards their race, origin, religion, gender or age;
- Ensure compliance with the working conditions required by the reference standards, not resorting to child labour, nor supporting it;
- Ensure the absence of abuses of any kind, both physical and psychological, by fostering dialogue and listening to workers' needs;

- Work in compliance with all existing regulations, committing to raising awareness among all interested parties, avoiding illegal and prosecutable behaviours;
- Search for greener suppliers and products, as far as possible and considering the specific bussiness context.

To ensure awareness of the Company Policy at all levels and by all collaborators, the *Management* has taken the following steps:

- Display to all staff of a copy of the **Company Policy** on the Company noticeboard;
- Publication of the Company Policy on the Company website
